Career Objective:

To pursue a challenging role as an IT Specialist or System Administrator where I can apply my expertise in network administration, system management, and process automation to ensure secure, efficient, and reliable IT operations.

Special Qualification:

- **Operating Systems:** Red Hat & CentOS Linux (v7/v8), Ubuntu, and Windows Server (2016, 2019).
- **Server Management:** Installation, configuration, and maintenance of DNS, FTP, Web, and Print servers.
- **Networking:** LAN/WAN setup, IP addressing, subnetting, MikroTik & Cisco router configuration, VLAN & Wi-Fi management.
- **Virtualization & Hosting:** Experience with cPanel, domain configuration, SSL setup, and server deployment.
- **Web Development:** Skilled in HTML, CSS, JavaScript, PHP, and MySQL for creating and maintaining web applications.
- **Automation & Reporting:** Strong command over MS Excel (Advanced Formulas, Power Query, Dashboards) and Power BI.
- **ERP Administration:** Hands-on experience managing Logic ERP (HRM, Payroll, Production, and Accounts modules).
- **Cybersecurity Awareness:** Familiar with system hardening, access control, and secure data handling practices.
- **Version Control & Collaboration:** Basic knowledge of Git for code management and team collaboration.
